The SAVING on Fuel alone makes INSO-BOARD a profitable investment

[[FREE—Write the Stewart Inso Board Company, St. Joseph, Mo., for a series of free booklets explaining INSO BOARD, its economics and its many uses.]]

Look into the future and visualize the home of your dreams. You must consider fuel bills as a highly important factor in its upkeep. Investigate that problem as you will, INSO BOARD, the dependable building insulation, offers the most logical solution. INSO BOARD saves one-third in house heating costs (by actual test). That one feature alone makes INSO BOARD a profitable investment in your new home. In addition, INSO BOARD shuts out the heat of summer just as effectively as it conserves the furnace heat in winter. It is a sound deadener and is easily, quickly and economically installed in the home. Ask your builder or lumberman about this dependable product.

COMPLETE PLANS

The designs submitted for your approval in the eight GARLINGHOUSE PLAN BOOKS include every type of residence now being built in the various parts of the United States, from the small very inexpensive cottage to the \$10,000 home.

In these designs you will find individuality, harmony and beauty combined with utility and efficiency.

There is no waste space in the Garlinghouse plans. You will find many large closets, attics with stairs where possible, basements and rooms arranged with thoughtful care for the furniture and the saving of unnecessary steps. Everything that is needed to make the home complete is included in these plans, but many of the features shown may easily be omitted if desired.

The complete plans for these designs consist of blue prints of all elevations, basement and all floor plans and complete details showing built-in features and intricate parts, all drawn to a scale of not less than $\frac{1}{4}$ inch to 1 foot. The specifications explain every detail of the construction of the house from the excavation to the interior decoration. The lumber and mill list consists of an itemized list of the lumber and mill materials needed to build the building, stating where each item should be used.

The price for the complete plans for the designs illustrated in the Garlinghouse Plan Books is clearly shown under the designs.
